Agenda Items 1. Welcome, Introductions, Administrative Remarks

Aloke Roy, Chair of SC-223, Honeywell welcomed the participants.

Rebecca Morrison, Program Director, RTCA, started the meeting with the RTCA anti-trust policy:

“RTCA meetings are conducted in strict compliance with U.S. antitrust laws. Meetings shall not consider, or be used to discuss, agreements on prices, including terms of sale or credit, production plans, marketing strategies or customer potential, or any other element of competition between participants.

RTCA staff will suspend any discussion that relates to such matters and the Meeting will proceed only after appropriate limitation of such discussions has been advised and agreed.”

Agenda Item 2. Review of previous meeting notes and action items

The working group reviewed and approved the SC-223 P28 meeting minutes with some changes, and updated the status of previous action items.

Agenda Item 3. Review of Current State of Industry Standards

3a. ICAO WG-I

Liviu Popescu reported that the ICAO SARPS revision publication is postponed from 2020 to 2022 due to the busy approval schedule of ICAO Communications Panel (CP). The UAS C2 link and Air/Ground voice are not included in IPS SARPS applications, but they could be considered in the IPS technical manual.

Action Item P29-2: Alope Roy to reach out to SC-228 to verify whether IPS will be used by C2 link.

3b. AEEC IPS Sub-committee

The AEEC IPS Sub Committee is developing AEEC IPS standards in two steps:

Step 1: 18-month planning activity with five 2-day meetings, potentially involving ICAO, RTCA, EUROCAE, etc. (2015 to 2017, deliverable ARINC 658); and

Step 2: Standards writing (2017 to 2019, deliverable ARINC 858).

The AEEC IPS Sub Committee has completed ARINC 658 and is currently working on ARINC 858.

The next AEEC IPS meeting is hosted by Boeing, at Boeing Flight Services Training Center, 1301 SW 16th street, Renton, Washington, October 30- November 1, 2018.

3c. EUROCAE WG-108 Status

Stephane Pelleschi provided an update on EUROCAE WG-108. The updated WG-108 TOR will be reviewed by EUROCAE TAC in October 2018.

3d. Alignment of ICAO, RTCA/EUROCAE & AEEC timeline & dependencies

Currently the IPS standard development schedules of ICAO, RTCA/EUROCAE, and AEEC are well aligned. However, the final selection decisions on IPS technologies such as security, mobility, naming and addressing, name lookup, etc., will primarily depend on ICAO.

Agenda Item 4. Current State of Industry Activities

4a. SESAR Programs

Francois d'Humieres briefed us on the progress of SESAR programs and recommended the group to read "FCI Initial Concept Description" document, which is SESEAR PJ14.02.04 deliverable D5.1.020.1. The document is available in the workspace.

Action Item P29-12: SC-223/WG-108 to review SESAR initial concept document.

4b. ESA IRIS

Kristen Mineck, Inmarsat, reported that Iris is in the Initial Operational Capability (IOC) phase, in which the priorities will shift to finalizing programmatic elements such as contractual agreements with ANSP and airline partners.

4c. Any Other Activities

No other activities were brought up.
