

March 19, 2026

**Summary of the One Hundred and Fifth Meeting**

**Special Committee 224 Plenary**

**Airport Security Access Control Systems**

The hundred and fifth meeting of SC-224 was held virtually on March 19, 2026

**Attendees included:**

Christer Wilkinson (Chair)	AECOM System Solutions
Alexander Para	RTCA
Martina Benedikovicova (Secretary)	CLT
Justin Martin	AECOM
Jodi Spencer	City of Boise
Kurtis Sorenson	City of Boise
Regrets:	
Djhanice Neric	FAA
Adam Shane	Burns Group

**SC-224 – Meeting No. 105  
(March 19, 2026, Meeting)**

**1. Welcome and Administrative Remarks:**

Mr. Para opened the meeting by reading the reminders for the Anti-Trust Requirement, Export Compliance Policy, Intellectual Property Policy, Membership Policy, and relevant exemptions, as well as RTCA membership requirements. After the membership update, Dr. Wilkinson presented the agenda for today’s meeting with no changes from the previous agenda.

**2. Agenda Review**

Dr. Wilkinson commented on TSA no longer being a co-chair and inquired about the status of ACI membership. Mr. Para said he would need to check with Ms. Rebecca Morrison, as he did not know.

Dr. Wilkinson then asked Mr. Kurtis Sorenson to introduce himself, as this was his first meeting. Mr. Sorenson is from Boise Airport and manages the Access Control System (ACS) and the CCTV systems there. He is working on the Perimeter intrusion section. Dr. Wilkinson remarked that that section is a large one and needs significant updates. He asked Mr. Sorenson to focus on one technology, but to scan the whole section and remove items that are no longer valid. A full update

would need a lot of effort, and it would not be possible to complete it by the September publication deadline. Dr. Wilkinson also thanked Mr. Sorenson for volunteering for that section.

### **3. Approval of Previous Meeting Summary:**

The Summary for the Plenary #104 (February 5, 2026) meeting was presented on the screen and briefly reviewed. The summary was accepted, and Dr. Wilkinson will post it on the AerOpus site after obtaining the RTCA Paper Number from Mr. Para.

### **4. Version DO-230N Discussion:**

Only two section leaders were present.

Mr. Martin showed his proposed changes, most of them small, or additions to already worded paragraphs. Dr. Wilkinson asked Mr. Martin to make sure to show his changes in red, rather than the presented green. Red shows up on screen better. Most of the changes pertained to fire and electrical codes, such as Internal Exit Readers, and the addition of UL 894 for delayed egress, and the International Fire Code. Dr. Wilkinson asked Mr. Martin to add a note in the document to that effect.

Another addition was regarding exit lanes with added verbiage for internal doors, and card readers for cleaners. It is a large section and requires a heavy lift. Dr. Wilkinson asked Mr. Martin to expand the section on thrown object technology, advise that not all manufacturers support that, add more information on readers for the cleaning mode, and enhance the section on power interruption.

Mr. Martin added the fire code in the mantrap section and expanded the self-bag drop-off and Delayed Egress sections. Dr. Wilkinson asked Mr. Martin to add the word “typically” to the sentence regarding door locking systems release, as there are other solutions available. He mentioned AUS, which has a double alarm system on the doors with delayed egress, which reduced their rate of alarms reportable to the TSA. Dr. Wilkinson then commended Mr. Martin for a job well done.

Ms. Spencer reported she was all done with her section. The version of the section she sent to Dr. Wilkinson is the final version.

Dr. Wilkinson then noted that all the sections need to be finalized in order to start the formal FRAC process in May. The document will then need to be assembled into one document for a 30-day PMC review. He inquired from Mr. Para who the final assembler of the document would be. Mr. Para advised that it would be whoever the Committee decides to designate.

Mr. Para can assemble the .pdfs together. While in the past someone from RTCA was designated to make sure that all of the changes are included and flow, RTCA no longer has anybody who does that. Mr. Para will still do the Quality Control on the document.

Dr. Wilkinson inquired if there have been any formatting standards changes since 2023. Mr. Para advised that there were no changes, so it will be sufficient to change the footer to 2026. There will be four sections updated in the next release.

## 5. Action Items for Next Meeting

- Presentation regarding FRAC. Ms. Morrison will present, as Mr. Para will miss the next meeting.
- Mr. Para will share the presentation in advance, if available
- Mr. Martin will have a few more changes
- Increase participation in meetings, as the comment period needs to start in May.

## 6. Next Meeting

April 16, 2026, at 10:00 am

May 14, 2026, at 10:00 am – tentative

## 7. Any Other Business

No new business was discussed.

The meeting was adjourned.
